Mugram Contracting Est.

About Us

We are pleased to introduce ourselves as one of the Contracting firm based in Dammam, Eastern Province. The company was established in the year 1998. During this period we completed several Industrial, residential and commercial projects. We have started a new construction and service division in 2008 with a vision to diversify the activities in the fast growing Industrial and Power projects sector under the guidance of professionally qualified and experienced senior Engineers having variety of experience in field and Engineering.

The company is dedicated in various types of Land Surveying and construction works. Our goal is to provide high quality service and product to meet client satisfaction. We ensure that project requirement will be addressed cost effectively, strategically and timely.

Mugram Contracting executes projects with the long term relationship with the client in mind. We aim to serve the industry by continuously exceeding the expectations of the client while adopting the highest codes of practice and international practice.

Executed Projects.

1. **Crusher, Accommodation and Office Project (Phase1)**

Client: M/S Dar Al Manajim Co. for Mining and Industry Ltd. (Al-Rashid Group)

Engineering design for the civil and electrical scope involved in the project.

Land development work including subgrade levelling and base course work.

Construction of various foundations for crusher equipments, support structures, control cabins, diesel tanks, outdoor electrical panels etc.

Grouting works for the crusher equipments.

Construction of work shop building and store including fabrication and installation of steel structure.

Construction of Building, various generator rooms, weigh bridge, septic tanks, U/G water tanks, sewer manholes, duct banks, hand holes, manholes etc. including water proofing works.

Supply and installation of sewer and water supply lines, pumps etc.

Supply, installation and commissioning of LV panels, ATS, LV cables, Generator connections etc for crusher, accommodation, work shop and office.

2. **Construction of various guard houses for Hadeed (Saudi Iron and Steel Co.)**

Client: Hadeed/ SABIC

Contractor: Abdulla Al Quaimi, Jubail

Engg. Design and approvals for the various guard houses.

Construction of various Guard Houses for Hadeed facilities, Jubail.

Mugram Contracting Est.

3. Construction of outdoor foundations, earth work and asphalt pavement.

Client: Redland Industries Services Arabia Ltd.(RISAL), Jubail

Construction of various equipment foundations.

Earth work and asphalt paving for the yard and office premises.

4. Construction of outdoor foundations and various works.

Client: Novotel Business Park, Dammam

Construction of lighting pole foundations, equipment foundations, duct banks, hand holes, man holes etc. Supply and installation of curb stone, interlocking bricks etc.

5. Survey work in Saudi Kayan project

Client: Saudi Kayan /SABIC

Contractor: M/S Masah Trading and services, Dammam.

Surveying job for the Access way and hard stand construction works in Saudi Kayan.

6. Asphalt Pavement work

Client: Inter Continental Hotel, Jubail

Asphalt pavement work for the new entrance area and access way.

7. Crusher project (Phase2)

Client: Dar Al Manajim Co. for Mining and Industry Ltd. (Al-Rashid Group)

Engineering design for the civil and electrical scope involved in the project

Construction of various buildings/sheds including supply and installation of steel Structures, power supply etc. Construction of ramps including retaining walls, platform slabs, side walls etc within the shut down period of the plant.

Grouting works of the equipment. Supply and installation of perimeter fence & gates

Mugram Contracting Est.

8. Survey work in Manifa.

Client: Saudi Aramco

Contractor: M/S Asmar Al Khaleej Cont. Est., Rastanura

Field survey and cut and fill calculation for the field development in Manifa.

9. Perimeter fence and asphalt paving

Client: M/S DarAl Manajim Co.for Mining and Industry Ltd.

Supply and installation of perimeter fence, earth work and asphalt Paving for their office facility in Dammam

10. Survey Monuments

Client: SARTOP/ Saudi Aramco

Contractor: M/S Fugro Maps, Riyadh

Construction of various survey monuments and crash barriers for the project in Jubail

11. Boundary Wall Project.

Client: Saleh Zaid Al Quraishi Trad. Est.

Construction of Boundary wall for the ware houses complex.

12. Crusher project (Phase3-Dust Plant)

Client: Dar Al Manajim Co. For Mining and Industry Ltd.

Engg. Design for the civil and electrical works for the crusher expansion project.

Construction of Equipment foundations, retaining walls, ramp etc for the dust plant including the grouting works for the equipments..

Design and construction of generators shelter, compressor room etc.

Assembly and erection of dust plant including support structures, conveyors, motors etc.

Tel: + 966 3 8338166
Fax: + 966 3 8331577
E-mail: info@mconest.com

Mugram Contracting Est.

Electrical works for the new crusher and modifications in the existing crushers.

Construction of car parking shed.

13. Lighting pole foundations for Hadeed (Saudi Iron and Steel Co.)

Client: Hadeed/ SABIC

Contractor: M/S Abdulla Al Quaimi, Jubail

Construction of various lighting pole foundations for Hadeed.

14. Analyzer shelter project

Client: ARRAZI/ SABIC

Contractor: M/S Abdulla Al Quaimi, Jubail / GAS Arabian Services

Construction of analyser shelter foundations and related civil works in ARRAZI plant.

15. Asphalt pavement project

Client: Muhaidib

Land filling, supply and installation of marl, base course and asphalt pavement work for the facility in Dammam port area.

16. Topography Survey Project (Maaden-Manifa-Safaniya OHTL)

Client: Saudi Electricity Company

Contractor: Larsen &Toubro Saudi Arabia LLC

T/L Route Length -100 KM Line route survey, check , topography and profile survey data of 100KM long, 380 Kv and 230kV Over Head Transmission Line between Maaden- Manifa- Safaniya under SEC Contract No.31033079/00 using GPS &Total Station.

Mugram Contracting Est.

17. Topography Survey Project (PP11 Integration OHTL, Riyadh)

Client: Saudi Electricity Company

Contractor: Larsen & Toubro Saudi Arabia LLC

T/L Route Length – 54 KM Line route survey, check, topography and profile survey data of 54KM long, 380 kV and 230kV Over Head Transmission Line works associated with PP-11 Integration under SEC Contract No.11031092/00 using GPS & Total Station.

18. JWAP Power supply project

Client: Jubail Water and Power Company (MARAFIQ)

Contractor: Sidem/ Powerline solutions International Co.Ltd

Construction of cable trenches, duct banks, manholes, foundations for panels, cable laying, panel installation, terminations etc involved in the power supply for offices.

19. Crusher equipment foundations Project

Client: Mohammed Al Manie Trading

Construction of various foundations, ramp, retaining wall (12mtr high) etc for the crusher equipment .Anchor bolt, Grouting of the embedded parts, structures and equipment.

20. Various earth work and asphalt pavement Project

Client: Al Rashed wood factory

Various earth work projects including land levelling, supply and compaction of marl, base course and asphalt pavement works in Dammam second industrial area.

Mugram Contracting Est.

21. Maintenance support.

Client: M/S DarAl Manajim Co.for Mining and Industry Ltd. (Al-Rashid Group)

Mechanical and electrical maintenance support for their Suman & Briman crusher.

22. Topography Survey (Power to Haramain High speed Railway, Makkah-Rabigh)

Client: Saudi Electricity Company

Contractor: Larsen &Toubro Saudi Arabia LLC

T/L Route Length – 220 KM Line route survey, check , topography and profile survey data of 220KM long, 380 kV Over Head Transmission Line works associated with Haramain High speed Railway(HHR)and associated relocation works under SEC Contract No.210333091/00 using GPS & Total Station.

23. Renovation project in Rushaid Village

Client: Al Rushaid Petroleum Investment Co.

Demolition of existing pavements, construction of new curb stones, interlock bricks, drive ways etc. inside the occupied high class residential compound

24. Earth work and Asphalt pavement works.

Client: Olayan Kimberly

Various earth work projects including land filling, levelling compaction, marl, base course and asphalt pavement works in their different facilities.

25. Pavement project in Al Khobar Lakes Village

Client: EMMAR Properties/ Rabya

Construction of new curb stones, interlock bricks, drive ways etc inside the Al Khobar Lakes village.

Mugram Contracting Est.

26. Power up gradation project.

Client: Zamil Plastics, Dammam Second Industrial City

Design & Construction of SEC switchgear building, Substation building, Cable trenches, Duct banks, Manholes, MDP foundations, Modification of existing building etc. including all water proofing works, Demolition of existing buildings, Substation building etc. & Various modification works.

27. Tank Farm Project

Client: Linde SIGAS, Dammam Second Industrial City

Construction of tank foundations, pump foundations, evaporator foundations, Lighting pole foundations, cable support foundation, drainage lines, POP building etc. for the tank farm inside the running facility.

28. Access Ladder to radioactive sources

Client: Advanced Petrochemical Company, Jubail Industrial City.

Fabrication and installation of access ladder to radioactive sources in PP Polymerization area.

29. PET Entrance facility, sliding gate & foundations.

Client: Zamil Plastics, Dammam Second Industrial City.

Various Civil and finishing works involved in the construction of PET entrance facility, sliding gates, renovation works, and various foundation works.

30. Perimeter Fence

Client: Jubail Polysilicon Project, Jubail-2

Supply and installation of perimeter fence with gates.

Mugram Contracting Est.

31. Various Civil works in Central Store.

Client: Ittifaq Steel Products Co.

Construction of weigh bridge foundations, Office building, Security room building, Boundary wall, Sliding gate, road barriers, unloading ramps, Manholes, Cable trenches, waterproofing works, earth work and asphalt etc

32. Asphalt pavement Project

Client: Linde SIGAS, Dammam Second Industrial City

Earth work and asphalt paving works for the new ware house area

33. Power up gradation project.

Client: Advanced Fibre glass insulation Co.(AFICO),Dammam Second Industrial City

Contractor: Powerline solutions International Co. Ltd

Construction of cable trenches /tunnel, duct banks, manholes etc. and its water proofing works for the Power up gradation project.

34. Substation building (MPDS) and Various Civil Works at Arab steel.

Client: Arab Steel Co. Dammam Second Industrial City

Construction of 154/22KV substation building and associated civil works covers Transformer foundations, Pump House, 6.6KV substation and Electrical control rooms, Mosque and locker buildings, QC lab building, underground scale pit, back wash tank, cooling towers, water tanks, various equipment foundations, cable rack foundations, cable tunnels and trenches, underground rooms/tanks, various buildings, manholes, retaining walls, pavements, fence, area development, security room, boundary walls, sliding gates, road barriers, ramps, finishing works, waterproofing works, renovations, rebar/anchor bolt chemical anchoring, grouting etc.

230KV/300MVA receiving transformers foundations at Arab steel through Green tower

Mugram Contracting Est.

35. Renovation works

Client: Zamil Plastics Industries. Dammam Second Industrial City

Various renovation works in the offices / other facilities and roof water proofing works.

36. Firefighting water tank construction

Client: Direct Reduction Iron Co. Ltd., Dammam Second Industrial City

Construction of firefighting water tank including water proofing works and demolition of existing tank.

37. Lab Extension

Client: Al Faisal Steel Products Co. Dammam Second Industrial City

Construction works for the extension of Laboratory building

38. Waterproofing for KFCA Tower

Client: King Fahad Causeway Authority/G.P Zachariades

Water proofing to the sub structure, wet and roof associated with the Rehabilitation of the Observation Tower.

39. Construction of transformer shelter.

Client: SABIC/GAS

Construction of shelters for the various transformers in side GAS plant.

40. Construction of Substation and electrical room.

Client: Salman Wofoor Steel Plant Dammam

Construction of 13.8/4.16KV substation building and MCC building including all transformer foundations and utility equipment foundations.

Mugram Contracting Est.

41. Construction of Pump House building and equipment foundations

Client: Al Qaryan steel, Dammam

Construction of pump house building foundations, Pump and motor equipment foundations and flooring.

42. 132kV Over Head Transmission Line Foundations @Al Kharj

Client: Saudi Electricity Co./ Mohd Al Ojaimi/Unisis

Construction of foundations of towers, gantry, SA, SE etc. for the tower line project in Al Kharj, Riyadh

Mugram Contracting Est.

Ongoing Projects

1. Various projects in the steel plant

Client: National Steel Co. /Ittiffaq Steel Products Co. Dammam Second Industrial City

Various construction and maintenance in the running plant including shutdown jobs.

2. 132kV Over Head Transmission Line Foundations @ Arar

Client: Saudi Electricity Co./ Mohd Al Ojaimi/Unisis

Construction of foundations of towers, gantry, SA, SE etc. for the tower line project in Arar

3. 132kV Over Head Transmission Line Foundations @ Al Jouf

Client: Saudi Electricity Co./ Mohd Al Ojaimi/Unisis

Construction of foundations of towers, gantry, SA, SE etc. for the tower line project in Al Jouf

4. Civil works for Rectifier replacement and Filter revamp

Client: Maaden Aluminium/ABB

Construction of foundations, fences and other civil works related to the project in Refinery and Rolling Mill

5. Construction of Hydraulic rooms

Client: Hadeed/SABIC

Engg design and Construction of various hydraulic rooms and associated civil works for DR revamping furnace and clarifier hydraulic systems
